DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Jensen (772360).

As to claim 1, disclosed is a device comprising a netting equipped at both ends (fig. 1) with bag rings (2 and 7) and wherein at each end there being arranged a second netting with purse lines (5 and 8).

As to claim 3, disclosed is a towing line (13).

As to claim 4, disclosed is a brace (3).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 3644

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Jensen (772360).

As to claim 2, not disclosed are a plurality of fish bags. It would have been obvious to one having ordinary skill in the art at the time the invention was made to comprise the device with a plurality of fish bags coupled together, since it has been held that mere duplication of the essential working parts of a device involves only routine skill in the art.

Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over Jensen (772360) and further in view of Salmon (3509848).

As to claim 4, not disclosed is a first netting over the fish bag. Salmon, however, discloses a netting (22) surrounding a bag (12). It would have been obvious to one of ordinary skill in the art at the time the invention was made to comprise the device of Jensen with the netting of Salmon to create a more secure means to tow the bag.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Moulson (455758), Juergens (1841956), Daugherty (2854782), Mitchell (2890543), McDonald (2950557), Mount (3015902), Stewart et al. (3150627),
